

# Shining light on death

## Living and Dying Well

*An online dialogue and workshop supporting healthcare professionals - especially for those in the caring professions, palliative care and hospice workers, GPs, Chaplains, undertakers, grief counsellors and those who are caring for dying friends or family.*

People often have different thoughts about where and how they would like to die. What most would agree is that they would like to have a peaceful death. What does that mean, and how can we prepare ourselves to make that easier? Chrissie & Richard will begin to explore how we can live and die well. Following their conversation together we shall then have time, in small groups, to continue that exploration for ourselves.

**Sunday 4th October 2020 4pm – 5.30pm BST**

Speakers in conversation

Chrissie McGinn & Richard Hewitt of Wisborough Transformation aim to celebrate the best in everyone. They have worked with individuals and groups for more than thirty years. They facilitate Conscious Caring groups in healthcare, personal development with individuals, and leadership development in organisations. They trained as Interfaith Ministers and are Spiritual Companions.
